magstak™ quad tower display
## assembly instructions

1 Remove items from packaging and check packing slip for proper content and quantity.

magstak™ module
(quantities vary)

optional
2-sided sign
(2 pieces)

adjustable
levelers (4)

quad tower base

optional
4-sided sign (2 pieces)

sign   sign

2 Tightly screw adjustable levelers into bottom of quad tower base before assembling.

⚠ Safety Warning: Tower bases are heavy! Use two people when installing levelers into bottom of base.

3 Stack one magstak™ module on top of the spinner base using the alignment disks that set into alignment ports as shown below.

module

module
neoprene washer
binding post screw

4 Optional: connect bottom module to spinner base using connector bolts (see detail 1). Stack second module in same fashion and connect the two modules using the binding post, neoprene washer and binding screw (see detail 2) to ensure a secure and stable fit. Do not over tighten!

completed tower

NOTE: Towers with standard size modules are 6 modules high. Towers with tall modules are 5 modules high (pictured). Towers with magazine modules are 4 modules high. Signage is optional.

See care instructions for proper care and handling of product.

**5** See optional magstak™ signage assembly instruction on reverse/page 2.
