

maker flex & maker flex kidS

Tables that are **height-adjustable**, **nesting**, and **mobile** for flexible spaces.

Two height ranges to fit your space and programming needs.

maker flex

29" to 42" height range

Our Maker Flex™ tables feature **sit-to-stand height** adjustability, making them ideal for dynamic spaces that support both seated and standing activities — and everything in between.

maker flex kids

24" to 34" height range

Don't let the name fool you — our Maker Flex™ Kids Tables are built for everyone. Designed to **adjust from toddler height to adult height** with a simple turn of the handle, these tables support a wide range of users and activities. Ideal for spaces with diverse programming and age groups.

Optional
rounded
corners!

Maximize everyday space flexibility.

Maker Flex™ tables bring next-level comfort, height adjustability, and mobility to any space. Designed for ultimate versatility, they are available in fixed height, adjustable height, or adjustable height + flip-top/nesting options. Whether you're outfitting a makerspace, community room, study, or art space, Maker Flex™ maximizes flexibility without compromising style or function.

Perfectly flexible and durable for multi-functional spaces.

Roll, flip, and nest to open up floor space.

Built to last.

Maker Flex™ tables are engineered with durability and functionality at their core. Each component is carefully selected to withstand the demands of daily use in public and high-traffic environments. Customers consistently praise the quality, reliability, and robust construction of our tables — a testament to the lasting performance Maker Flex™ delivers in any setting.

This table is perfect!

It's multifunctional, easy to set out or put away, and very well made. This table is a great purchase.

~ School client, PSA 189 Magnet School, NYC

A flexible space is as easy as 1-2-3-4!

1

choose a table & height range

maker flex
