

discovery flex

Mobile, height-adjustable solution for library spaces
with diverse programming & age groups.

Reach New Heights

3Branch's discovery flex table is built to move with your space & your patrons. With easy height adjustment from young children to adult standing level using a simple turn of the handle. It's the **ideal solution for libraries & learning environments that serve diverse age groups, support dynamic programming, & meet ADA compliance standards.**

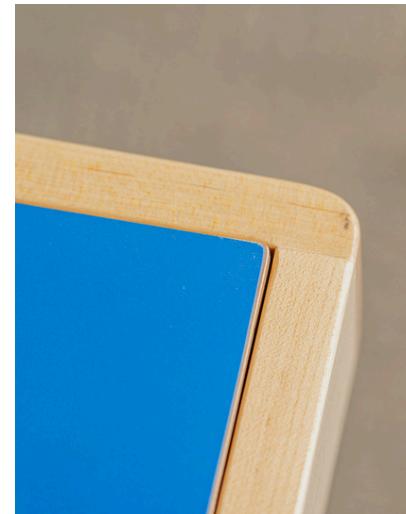

Height-adjustable (24" - 34")
or in fixed height

Reversible
activity tops

Casters for
mobility

Hardwood maple frame with
rounded corners

Endless exploration for every age!

Designed for both durability & flexibility, discovery flex offers multiple reversible activity tops, colors, & finishes. Customize the table to fit any space & programming needs.

Whether it's used in the teen area as a sturdy LEGO® base, or as a place where toddlers bring a wooden railroad town to life, discovery flex is the **solid foundation that adapts, supports, & grows with the community.**

Available Configurations:

- #4950 building brick & flat surface
- #4951 train track & flat surface
- #4952 pegboard & flat surface
- #4953 building brick & train track
- #4954 light box

Building Brick

A popular activity! Children & teens can build, design, & create on a 47" x 32" surface.

Train Track

Kids can design routes, connect tracks, & create their own railway stories!

Pegboard

Build, stack, & create with TinkerToys® & colorful shapes.

Lightbox

Kids can build with Magna-Tiles®, while young adults use for tracing images or exploring artifacts.

A Table for Every Chapter
