magbrowz

Turn existing flat shelving into face-out browsing.

Effortlessly Convert from Spine Out to Face-Out

3branch's magbrowz provides face-out browsing for picture & board books, CDs, DVDs, Blu-rays, video games, & more. Our bins & trays **convert standard flat shelving into "flip-style" face-out browsing instantly!**

Open sides reduce weight & allow for three rows of materials, while support treads keep materials in place & upright.

Available in four popular sizes:

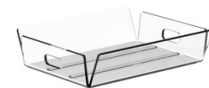

large bin

small bin

large tray

small tray

"My picture book circulation has increased because patrons can flip through & look at the covers. This was a great investment!"

- Library Media Specialist at Lawrenceville Elementary School

Easy-to-install! No tools or new shelving required.
