

Both an activity panel + shelving
end panel, all in one!

Discovery

Play End Panels

Minimal footprint, maximum fun!

Packed with play—no extra space needed.

3branch Discovery Play End Panels **take the place of a traditional shelving end panel**—and add way more fun. Libraries & designers love them for adding a fresh spark to existing shelving or bringing excitement to new installations.

Designed to **spark engagement** through all kinds of play—**sensory, creative, pretend, constructive**, and **STEM**—our Play End Panels support kids with a **wide range of motor skills** and **play preferences**.

Whether you **incorporate one, or transform all your shelving** for a complete refresh packed with play, you are sure to bring excitement and discovery to your children's space!

A shared vision.

After more than a decade of success with our Discovery Activity Tables—helping spark play and engagement in children's library spaces—3branch partnered with the talented team at Product Architecture + Design to create an expanded line of play products that inspire learning, creativity, and, of course, discovery.

With over 20 years of collaboration with public libraries, the Product Architecture + Design team understands what makes a children's space feel community-centered, lasting, and fun. Thoughtfully designed, 3branch Play End Panels blend interactive play with a cohesive aesthetic that elevate any space and support a wide range of activities.

Our Discovery Play End Panel Collection. Designed to inspire curiosity.

Ball Drop

Children love the excitement of watching the ball bounce and zigzag off colorful rods! Drop it and see where it lands — the fun never ends!

Color Wheel

Exploring color theory through play! Children can see translucent colors transform while passing over white and primary hues.

Building Brick

Always a popular activity! Children can build, design, and create on a vertical surface!

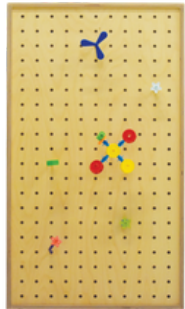

Felt

A refreshing break from screen time — kids can create stories, scenes, or build characters.

Hook and Loop

Blocks, toys, or craft materials with VELCRO® that simply interlock to board for never-ending imagination.

Pegboard

Kids can build, stack, and create with TinkerToys® and colorful shapes — even designing their own pretend looms for imaginative weaving fun!

Funhouse Mirror

Funhouse mirrors turn normal reflections into something silly and fun!

Magnetic

Kids love magnets — from gears and letters to numbers and fun characters! They can build, create, and explore endless possibilities, turning playtime into a fun, hands-on learning adventure.

Laminate

Pair laminate end panels with 3branch play end panels for a cohesive, coordinated look across your shelving.

Sensory Tube

Captivates young patrons with a mesmerizing flow of movement and color that invites quiet observation and exploration.

Play End Panel Collection:

Each panel is expertly **crafted in the Midwest** using **Baltic Birch construction** and the most durable materials for each configuration, ensuring a sturdy foundation for never-ending play.

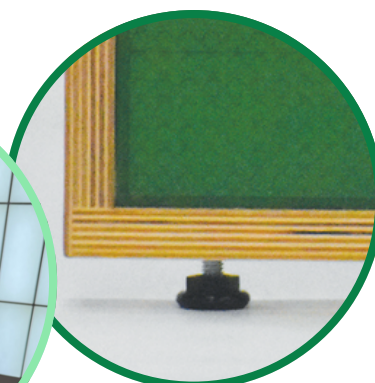

These end panels are **easily secured** to shelving with your existing steel end panel brackets and levelers and glides are attached to stabilize. This simple addition **turns ordinary shelving into an interactive must-stop** during every library adventure.

Durable construction

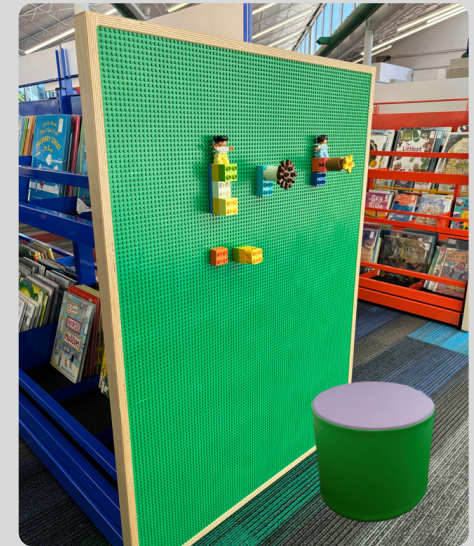

Clean, light finish

Leveler for stability
