

maker flex kids

The table that grows with the littles of patrons.

A Flexible Space is as Easy as 1-2-3!

Don't let the name fool you, 3branch maker flex kids tables are built for everyone. Designed to adjust from toddler height (24") to adult height (34") with a simple turn of the handle, these tables support a wide range of users & activities. **Ideal for spaces that support diverse programming, serve various age groups, & meet ADA compliance standards.**

Maker flex kids tables are engineered with durability & functionality at their core. Each component is carefully selected to **withstand the demands of daily use in public & high-traffic environments**. Customers consistently praise the quality, reliability, & robust construction of our tables – a testament to the lasting performance the Maker Collection delivers in any setting.

"This table is perfect! It's multifunctional, easy to set out or put away, & very well made. This table is a great purchase."
