

maker demonstration

Let Us Demonstrate!

3branch's maker demonstration tables are **designed to provide a large surface to spread out in front of a large class or pull a smaller class right up** to this large table for close-up instruction.

The generous overhang, integrated power hub, & range of configurations allow this table to be the anchor of a maker lab or instruction space.

Features & Accessories:

- Worksurface overhangs table frame 8" on three sides
- Welded stainless steel or powder-coated steel frame
- Heavy-duty TotalLock casters (available with adjustable levelers)
- Locking drawers & cabinets with finished back panels
- Integrated power &/or wire management
- Many configurations of cabinet doors, drawers, open shelving, & combinations
