discovery classic

A myriad of possibilities for play!

Activity Table to Support Early Literacy & the Power of Play!

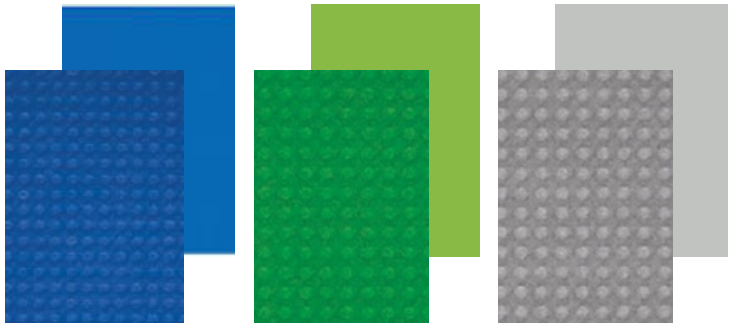

Children are naturally drawn to discovery activity tables & the possibilities they present. Discovery-based learning complements early literacy efforts by **encouraging exploration** & provides **unlimited opportunities for interactive play**.

train track top with flat play surface on reverse side

Modular Features & Popular Configurations

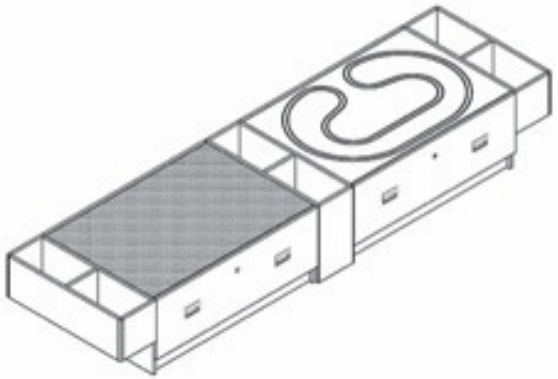

Modular design features **reversible activity tops** that make it easy to refresh the play experience and **keep young patrons engaged** with new opportunities for discovery. Available in multiple configurations, they can also be arranged in a double layout to expand opportunities for more play!

Additional Features:

- floating open side bins for toys
- clear acrylic inserts for side bins (optional)
- large, lockable storage drawer
- baltic birch construction
- rounded corners and edges

single with side bin storage

double layout

Pair with Discovery Seating!
